

The DEFENCE+ D200 Room Sanitiser is a powerful sanitiser disinfectant spray, simple and effective for killing germs and viruses. Simply place the can on the floor, clip the button down and allow the whole can to empty, filling the room with a fresh scented sanitiser. Enter the room after a minimum of 20 minutes to find every area in the room fully sanitised and smelling fresh, also leaving an antibacterial coating on every surface that evaporates during the 20 minutes you are waiting, without leaving any residue.

- Button can be clipped down so it can be left in the room until the can is empty.
- Only takes 20 minutes to fully sanitise the room.
- Leaves no residue.
- Leaves the room smelling fresh.
- Leaves an antibacterial coating on every surface in the room.
- Approved to BS EN 1276, BS EN 1650 (yeast), BS EN 14476 (June 2020).
- 1 x 200ml aerosol can sanitise approximately a 5m x 5m x 2.5m room.
- Suitable for use in pubs, restaurants, offices, aircraft, rail transport, medical areas, general living space and more.
